Feel the sorrow of a divided country. To truly understand Korea and her people, visitors must understand the effect of the war and the chasm it left in the hearts of its victims. The only divided country on earth, Korea and its symbol of division, DMZ. DMZ is the most heavily fortified border on the planet. It has been 50 years since the Korean War ended in 1953. However, the DMZ remains, dividing the Korean Peninsula. Visitors can see a picture of Korea's division and its fragile state of peace at the Demilitarized Zone.
